

Shunt resistor 0.1 Ω for DIN rail mounting

7030

- Max. voltage: 500 V (between ground and terminals)
- Connection: screw terminals

Application

- External shunt resistor in connection with AC/DC transmitter type 2279 or trip amplifier type 2231.

Technical characteristics

- Max. voltage: 500 V (between ground and terminals)
- Max. current: 5 A
- Accuracy: 0.5
- Max. load: 2.5 W
- Connection: Screw terminals
- Color: Gray with green terminals
